

# Hand Basics

1. Draw in the palm block
2. Find your arcs
3. Block in your negative spacing
4. Avoid symmetry

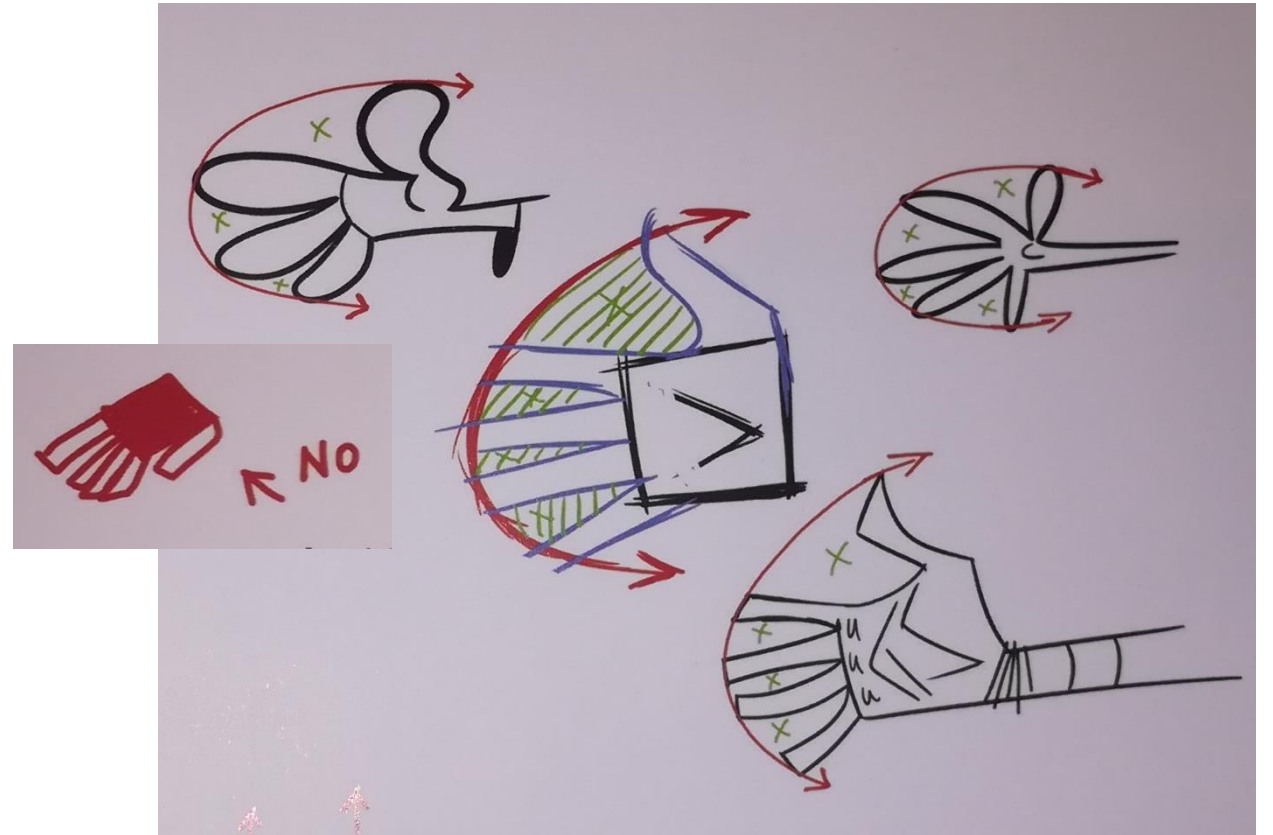

# Hand Basics

- Negative space and variety
- Front of palm passes the halfway line

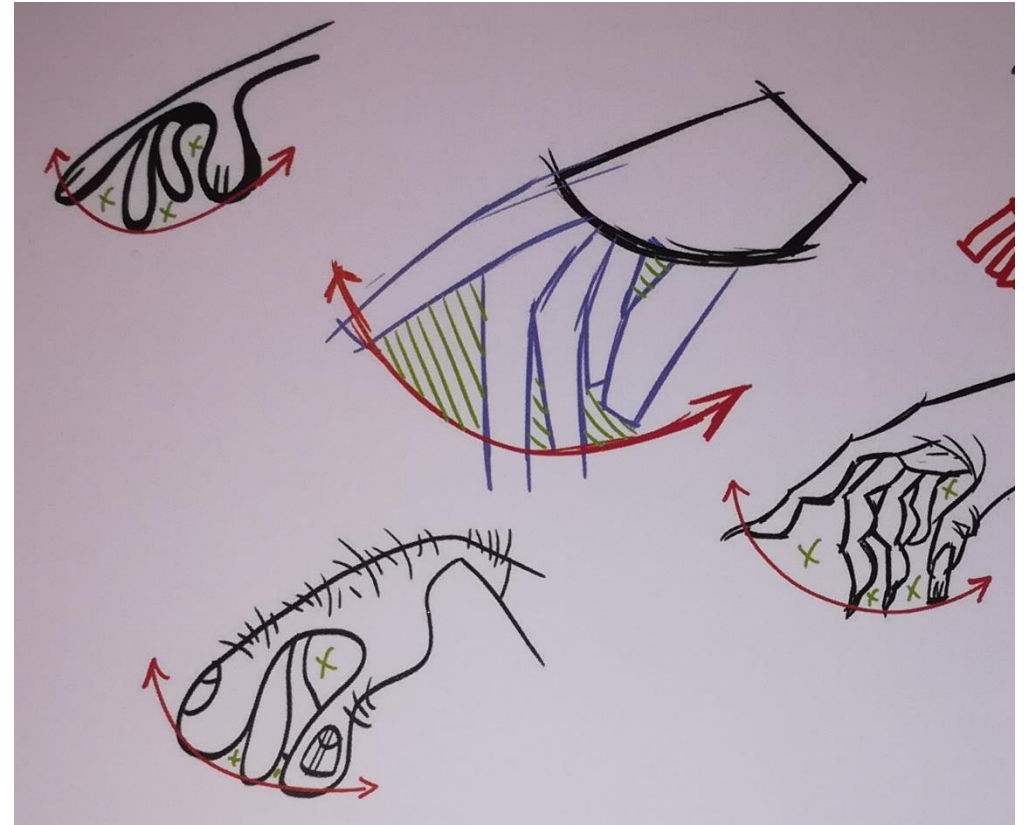

# Hand Basics

- Avoid making the palm a perfect square – give it contrast
- Break up the negative space between the fingers

# Hand Basics

- Alter the length and thickness of fingers
- The secret to drawing hands is all in the spacing

# Hand Basics

- Look at the variety of all of the finger shapes
- It creates movement
