

## Comic Terminology Assessment

**Directions:** You will use comic language to identify different jobs and parts of the assigned comic. Today you will read *The Amazing Spider-Man: Renew Your Vows*, written by Dann Slott and penciled by Adam Kubert – the headlining guest from our 2015 comic-con show! Refer to your class notes if you struggle with any of the questions.

1. What does “penciled” mean?
2. What is John Dell’s job as an inker?
3. Most comics have a page with a large, central image – normally a single panel – that includes the creator and publisher information. What is this page called?
4. Using the page below, label the following parts of a comic. Each part is outlined in a thick green box – box is not part of the original art.
