

## Determining Bias: Emotive Language

**Directions:** Follow the instructions and answer the questions to help you improve your understanding of emotive language.

**Step 1:** Define Emotive Language. Write a formal definition and then write another definition, where you put it in your own words.

Formal Definition:

Definition in Your Own Words:

**Step 2:** Find 5 examples of emotive language in current news articles. Make sure that you fill out the source information so that I can look up the article, or you will automatically lose credit for the assignment. Also, list only the words/phrases that are examples of emotive language and then explain why these words/phrases are examples of emotive language, how these words/phrases bias the audience.
