

## Panel Arrangement

Panels should be arranged in a way that:

- propels the story forward in a [ ] and compelling way
- keeps the reader's eyes moving in the [ ] path
- is a semi-self [ ] unit of design
- is also part of the [ ] [ ]

## Inventional Panel Arrangement

- [ ] panel arrangement
- used to [ ] to storytelling experience (mood, plot, etc.)
- avoid being overtly [ ] to the reader's experience

## Analyze the Panel Arrangement

Why select this design?  
What visual elements help the reader figure out the reading order?
